GET MORE GRASS WITH GRASLAN

FMC is partnering with Aero Professional Services Emerald to provide in-field solutions for graziers looking to cost-effectively control brigalow regrowth, tea tree regrowth, Mimosa pigra and other registered woody weeds on grazing lands.

Plan your regrowth control now by combining Graslan® Herbicide with the effectiveness of an independent vegetation mapping consultant to make your paddocks more productive.

Graziers interested in aerial application contracts can contact the independent vegetation mapping consultants directly:

Graham Fossett 0427 458 432
Stu Leahy 0427 667 107
Tim O'Brien 0427 442 816

Ken Springall 0409 871 141
Paul Tippett 0499 010 141

AERIAL APPLICATION

In partnership with Aero Professional Services

FMC is pleased to partner exclusively with Aero Professional Services (APS) to deliver precision aerial application of FMC Graslan™ Herbicide. APS has been applying Graslan in Queensland for 20 years using custom-built specialist precision application equipment, a highly experienced team of expert pilots and ground crew. APS is the market leader in this segment, when it comes to Graslan™ only the best will do!

Aerial application of Graslan™ is a full service model including:

- On-farm paddock inspection completed by a highly experienced local specialist.
- GPS mapping of the area to be treated, soil type, topography and vegetation assessment, interpretation and compliance with the Vegetation Management Act 1999 and Reef protection regulations.
- A detailed prescription is written that is tailored to the specifics of your site conditions.
- An all-inclusive one-price contract is signed, no hidden costs or nasty surprises to bite you later!
- Product is supplied freight included (FIS) to your local Farm Supplies Retailer.
- Precision application by Aero Professional Services includes on-ground supervision, pilots, planes and loading machinery.
- A copy of the completed application log is provided following application.
- A written performance guarantee is provided that is valid for two and a half years after application.
