Get more grass with Graslan

Aero Professional Services (APS) have been applying Graslan in Queensland for over 20 years using custom-built specialist precision application equipment, a highly experienced team of expert pilots and ground crew. APS is the market leader in this segment, when it comes to Graslan, only the best will do!

Aerial application of Graslan™ includes:

1. On-farm paddock inspection by a highly experienced local specialist.
2. GPS mapping of the area to be treated, soil type, topography and vegetation assessment, interpretation of and compliance with the Vegetation Management Act 1999 and reef protection regulations.

3. A detailed prescription tailored to the specifics of your site.
4. An all-inclusive one-price contract is signed, no hidden costs.
5. Product is delivered free in store (FIS) to your local reseller.
6. Precision application by APS includes on-ground supervision, pilots, planes and loading machinery.
7. A copy of the completed application log.
8. Graslan's performance is guaranteed for two and a half years after application
